strong in connectivity

3D Full HD Media Player - Streamer

Watch your movies in 3D Full HD 1080P

After you had bought a Smart TV, you were longing for a relaxed movie night. Only your Smart TV doesn't play the movie because of its limited file support. The EM7480 plays almost all file formats. Even BD-ISO and DVD-ISO files. Besides that, the media player supports 3D file formats too.

Play media from the external hard disk, USB stick, NAS or stream from your network

Connect an USB stick or external hard disk to the player and play your pictures, music and movies on your television. Prefer sharing files in your network via DLNA, UPnP or Samba? Or stream from your NAS or computer? No problem! The EM7480 plays all your files.

EM7480 | Full HD Media Player - streamer

- 3D Full HD Media Player with next-generation Realtek RT1186 chipset.
- Supports file formats which aren't supported by Smart TVs: BD ISO files and DVD ISO files
- Compact, powerful and completely silent
- Play from external hard disk, USB stick, and your network (NAS)
- Movie info and subtitle download function
- Play video formats like MKV, VC-1, AVCHD H/X.264 on your Full HD 1080P television
- Supports 7.1 Dolby TrueHD & DTS-HD pass through HD Audio on HDMI
- 3D formats Side-by-Side, Top-Bottom and Frame Packed
- Built-in Gigabit LAN. WiFi optional via USB dongle (EM4576/EM4579)
- Supports 2D and 3D Blu-Ray ISO files
- Built-in SD/SDHC memory card reader

3D Full HD Media Player

Better audio & video format support than a Smart TV

Are you eager for a media player which plays all your media files?

The Eminent EM7485 3D Full HD Media Player with Realtek RTD1186 chipset plays almost all video and audio formats on your Full HD 1080P television. Even Blu-ray ISO files and DVD ISO files, which aren't supported by your Smart TV and tablet! Play your media files from the internal hard disk, USB stick, SD card, NAS or your network to your television.

Supports almost all file formats.

After you had bought a Smart TV, you were longing for a relaxed movie night. Only your Smart TV doesn't play the movie because of its limited file support. The EM7485 plays almost all file formats. Even BD-ISO and DVD-ISO files. Besides that, the media player supports 3D file formats too.

A real cinema experience at home.

Play the sound of your movies and music via the television. Do you own a external amplifier? Then you can play the audio via your home cinema system. The EM7485 media player gives you a full cinema experience by its crystal clear video and sound.

EM7485 | 3D Full HD Media Player
For internal hard disk

- 3D Full HD Media Player with next-generation Realtek RT1186 chipset.
- Supports file formats which aren't supported by Smart TVs: BD ISO files and DVD ISO files
- Play from internal hard disk, USB hard disk, and your network (NAS)
- Easy hard disk mounting system for 3.5" SATA hard disk (tested up to 4TB)
- Movie info and subtitle download function
- Play video formats like MKV, VC-1, AVCHD H/X.264 on your Full HD 1080P television
- Supports 7.1 Dolby TrueHD & DTS-HD pass through HD Audio on HDMI
- 3D formats Side-by-Side, Top-Bottom and Frame Packed
- Built-in Gigabit LAN. WiFi optional via USB dongle (EM4576/EM4579)

Wifi Repeater

Easily increase wireless network coverage throughout your home!

Eminent EM4590 Universal WiFi-Repeater

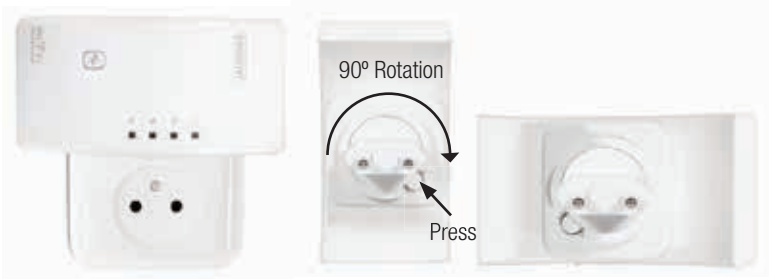
Wi-Fi-repeater increases your wireless network coverage. The Repeater has a WPS button which makes the setup very easy, without complicated settings in your router or repeater. By the built-in power connector you can put the Wi-Fi-repeater directly into the power outlet. This is the most easy way to increase your wireless network coverage in your home or office!

Easy setup with WPS

Because of the WPS (Wi-Fi Protected Setup) function on the Eminent EM4590, the installation can be performed without complicated settings. Press the WPS button on your router, then press the WPS button on the Eminent Wi-Fi repeater and the installation is completed! You can also do the setup manually on the EM4590 by the built-in web interface.

Works with any wireless router

The Eminent Wi-Fi repeater uses the 300N standard. This standard is compatible with all common routers. This will make the Wi-Fi repeater universally applicable.



Additional network port

The EM4590 can also be used as an access point.
The Eminent EM4590 can not only be used as a repeater, but you can also connect a device with a wired network connection.

Flexible power plug

The built-in power plug allows placement of the EM4590 directly into the power socket. Because of the adjustable power plug, the Wi-Fi repeater can be used in a horizontal or in a vertical power outlet.

Dual Band WiFi Repeater Pro

The EM4592 Dual Band WiFi Repeater increases your wireless network coverage for both the 2.4GHz and the 5GHz band!

5GHz 2.4GHz

Dual Band repeater

Does the signal of your wireless network not reach throughout your whole house or garden? The Dual Band WiFi Repeater increases the wireless network coverage of your Dual Band router (2.4 GHz and 5GHz band). Use the 5GHz band when your 2.4GHz band suffers from many interferences. The 5GHz band is less crowded so it involves hardly any failures and increases the speed.

Location indicator

Plug the EM4592 in the power socket. The WiFi signal indicator displays the best location for the repeater. This ensures an optimal wireless signal.

Easy installation with wizard or WPS button

Installing the EM4592 is very easy. Press the WPS (WiFi Protected Setup) button on your router, then press the WPS button on the Eminent WiFi Repeater. Do you prefer installing the repeater manually? The super easy installation wizard guides you through the installation. You can even use your tablet and smartphone. How easy is that?

myiSharing NAS

EM4172 | myiSharing NAS

- Central storage for all your documents and media files at home or at the office
- Worldwide easy access with myiSharing
- Free Android and IOS app
- Share your media via UPnP

★★★★☆
Computer idee

"Userfriendly NAS, simply accessible from outside your network. Good Multilingual User Manual."

Saving and sharing documents and media files never was so easy

Central storage for all your files at home or at the office
The EM4172 myiSharing NAS is connected to your network, so it is always accessible, without the use of a computer. Every device in the network has access to all files stored on the EM4172 myiSharing NAS like: movies, music, pictures, documents.

Worldwide access through the myiSharing Cloud function
Manage your stored documents worldwide by the web portal of the myiSharing Cloud. Your data is always available without being public. The only thing you need is an ID and a password. Which can be adjusted by yourself.

Access to your files with the free mobile app
The special app for IOS and Android devices takes care of the worldwide access to your pictures, videos and music. You can store your files directly on the myiSharing Cloud with your smartphone and tablet. So your smartphone and tablet always got enough storage.

Safe storage of your files
Your files are safely stored with help of RAID-1 (mirroring), because your files are stored at two hard disks. When one hard disk breaks down, your files are still save. We advise you to make an extra back up of your files on an external USB hard disk and store this back up at a safe place.

Share your media files via DLNA and UPnP
Files can be played at devices which support UPnP like: Xbox 360, Playstation 3, iTunes, DLNA certified UPnP devices, Windows 7 (Windows Media Player), Windows 8 and our Eminent Media Players.

Torrents, UBS printer server and social media
The EM4172 myiSharing NAS offers many useful extras. The build-in printer server shares the USB printer via the network. You can download with Bittorrent in the myiSharing Cloud too. New files easily can be posted at Facebook with the myiSharing Cloud.

WiFi Travel Reader

Designed for use with Apple Devices

Watch at home or on the go wireless videos and photos

You simply have to connect your USB-stick or SD-card to the WiFi Travel Reader. This compact WiFi Travel Reader also functions as a WiFi hotspot and WiFi repeater. You can use the EM4610 everywhere by means of the internal battery.

SD-Card

USB stick

Expandable storage with a SD-card and USB-stick

The storage at your iPad, iPod and iPhone is limited but you still want to take all your files along and share them. The WiFi Travel Reader amplifies the memory of your iPad, iPod and iPhone directly with help of a SD-card or USB-stick. Watch and share your files with the free iOS app.

WiFi hotspot: share your Internet connection

As if the above features were not enough, the EM4610 still covers more functions. When you have access to Internet through a wired connection only, the EM4610 creates a WiFi hotspot. You only have to plug the UTP-cable in the WAN-port whereupon the EM4610 creates a WiFi hotspot for your Apple device. This connection can be shared with other devices at the same time.

Free Eminent 4610 app

Share your files directly via the free IOS app without using iTunes.

Available on the App Store

WiFi Travel Reader Pro

Designed for use with Apple & Android Devices

Watch at home or on the go videos and photos wirelessly

It often can be difficult to have a quick look at your freshly made holiday pictures on your tablet or smartphone. Certainly if you also want to share them with your family and friends. The EM4620 WiFi Travel Reader Pro streams pictures and videos from an USB stick or SD card to your Android / Apple tablet and smartphone. Now it is possible to watch pictures, videos and other files directly. Does your tablet or smartphone yearn for a power boost? Charge the battery with the internal power bank from the EM4620. Only a wired Internet connection available? Plug the Internet cable into the WiFi Travel Reader Pro and create a WiFi Hotspot which can be shared with other devices. This all with only a small but versatile device..

Expandable storage with a SD-card and USB-stick

The memory of tablets and smartphones often is limited. Expand the storage of your smartphone and tablet with the EM4620 WiFi Travel Reader Pro. Download and upload all your files from an USB-stick and SD-card wirelessly to your tablet and smartphone via the WiFi Travel Reader Pro. In this way you can back-up your files too. This is very easy with the help of the free Android/iOS app.

Watch your pictures directly

Use the EM4620 for watching your freshly made pictures directly on your Android/iOS tablet and smartphone. Insert the SD-card in the WiFi Travel Reader Pro. Watch and share your pictures. immediately with others via the free app.

The WiFi Travel Reader Pro is your perfect travel accessory:

- Watch and share videos or photos wirelessly
- Backup your tablet and smartphone
- Internal power bank: charge the battery of your smartphone or mp3-player
- Use the EM4620 as wireless router, repeater and access-point
- Create your own WiFi hotspot and share your Internet connection with others
- Free Android and Apple app

Always enough power with the power bank!

The WiFi Travel Reader Pro also functions as a power bank to charge your smartphone. Now your smartphone never runs out of power.

Free Eminent app

Share your files directly via the free iOS & Android app.

ANDROID APP ON Google play

Available on the App Store

WiFi Travel Router

Designed for use with Apple Devices

Share a Wifi hotspot and charge your iPad

Create a WiFi hotspot and share your Internet connection at a hotel room. With the EM4600 WiFi Travel Router you can create a WiFi hotspot by yourself and share this connection with other wireless devices. At the same time it performs the role of a WiFi repeater. The WiFi Travel Router is powered by your iPad charger. The unique design will ensure that the EM4600 is the perfect accessory for your iPad.

EM4600

Connect easily

Plug your iPad charger in the power socket and connect the WiFi Travel Router to it by putting it at the back of the iPad charger. Connect the UTP-cable, which is available at the hotel room, to the WAN-port of the WiFi Travel Router. You can detect easily the wireless network with your iPad, iPod and iPhone. These simple steps will ensure a simple creation of a WiFi hotspot.

Repeater function

The WiFi Travel Router ensures that existing wireless network coverage will be increased. The EM4600 simply gets connected to your iPad charger and will be adjusted to the repeater function. The WiFi Travel Router increases the coverage of the occupant wireless network. In this way you also have a wireless Internet connection when you are just out of reach of your standard wireless network.

The WiFi Travel Router is suitable for an iPad-charger.

WiFi Travel Router

WiFi Travel Router, Travel adapter and USB charger in ONE!

Do you often stay in a hotel? Do you also think it is annoying to have only a wired Internet connection instead of a wireless connection? How wonderful would it be when you could share your wireless Internet connection with other devices too?

It is perhaps recognizable when you are abroad without the right travel plug along with you. If you want to give your smartphone or tablet a quick power boost, you first need to buy a new travel adapter.

We found a solution for this. From now on you only have to think of one item when you are going abroad: The EM4630 WiFi Travel Router. This compact device creates a WiFi hotspot when only a wired Internet connection is available. Share this wireless Internet connection with other wireless devices too. Charge you smartphone and tablet with the USB port on the EM4630. The WiFi Travel router is the ideal travel mate because it includes multiple travel plugs.

Why is the EM4630 WiFi Travel Router your ideal travel accessory?

- The EM4630 WiFi Travel Router creates a WiFi hotspot when only a wired Internet connection is available
- Share your Wireless Internet connection with other tablets and smartphones
- The WiFi Travel Router includes all travel plugs
- Suitable for Europe, US / China, Australia / New Zealand
- USB connection: charge your tablet and smartphone.

Easily connect to the Internet

Plug the Internet cable into the EM4630 WiFi Travel Router and create a WiFi hotspot.

Share your Internet connection

Share your connection with other tablets, smartphones and devices with WiFi.

Using and charging at the same time

During the use of the router function it is possible to charge your tablet or smartphone at the same time.

Your ideal travel companion.

It isn't necessary anymore to take along different travel plugs when you're going abroad. The compact WiFi Travel Routers includes all travel plugs.

e-Alarm Wireless Alarm System

Reliable wireless app controlled alarm system based on Mobile SIM card!

Secure your home and office!

The Eminent EM8610 wireless Mobile Alarm System Starter Kit is the perfect solution to secure your home and office. The EM8610 works via the reliable mobile network. With the enclosed back-up batteries you are sure that your system continuously operates in case of a power failure. Setting up the Alarm System is very easy.

The Starter Kit has a control panel (with SIM card use*), 1 wireless motion detector, 1 wireless door/window contact, 2 remotes, 2 RFID tags and power adapter.

The Alarm System supports up to 50 wireless sensors. Up to 5 programmable phone numbers are supported. Enough to secure your home or office comfortably. Control the Eminent Alarm System via the control panel, the remote, RFID tag or via the special Eminent e-Alarm App for Apple IOS or Android.

Professional USB accessories

EM1014 | USB 2.0 Signal Booster Cable

Amplify your USB signal over a distance of 5 meters with this USB signal booster!

- Easily extend your USB cable
- Length of the cable: 5 meters
- Cascade the USB Signal Booster up to 4 times
- Compliant with USB 2.0 specification

EM1020 | USB 2.0 Signal Booster Cable

Amplify your USB signal over a distance of 10 meters with this USB signal booster!

- Easily extend your USB cable
- Length of the cable: 10 meters
- Cascade the USB Signal Booster up to 4 times
- Compliant with USB 2.0 specification

EM1114 | USB 3.0 Active Extension Cable

Boost your USB 3.0 signal over a distance of 5 meters with this USB 3.0 Active Extension Cable!

- Easily extend your USB 3.0 cable
- Length of the cable: 5 meters
- Cascade the USB 3.0 Active Extension Cable up to 2 times
- Compliant with USB 3.0 specification

EM1016 | USB to Serial Converter High Performance

The easiest way to connect a serial device to your USB port!

- Easily connect a PDA, digital camera or other serial devices to your computer
- Compliant with USB 2.0 specification
- Supports RS232 serial interface
- Bus-powered and plug & play

Professional USB accessories

EM1018 | USB to Parallel Converter High Performance

Easily connect a parallel device (e.g. printer) to your USB port!

- Cable length: 1.8 meter
- Compliant with USB 1.1 specification
- Supports IEEE1284 parallel interface
- Supports bi-directional operation

SB2080 | USB to PS/2 Converter

Use your full size keyboard on your notebook

- Convert USB to PS/2 connectors!
- 1x USB converter to 2x PS/2
- USB Type A/ MiniDIN 6-Pin female
- Driver-less installation

KVM & HDMI Switches

EM1037 | 2 Port KVM Switch USB with Audio

Control two pc's with just one keyboard, mouse and monitor!

- 2 port KVM switch USB
- Also switches audio
- High resolution (max. 1920 x 1440)
- Comes with cable set

EM1019 | 4 Poorts Switchbox USB 2.0

Easily share one USB device with four computers!

- Switchbox USB 2.0 to share one USB device with four computers
- Equipped with selection button to switch between the connected computers
- Completely driverless solution
- Compatible with all USB devices

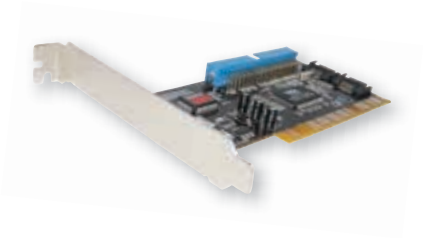
Card Reader USB 3.0

EM1073 | External USB 3.0 Card Reader

Extreme fast USB 3.0 Card Reader

- Super Speed USB 3.0 card reader
- Extreme fast data transfers
- Colour : black
- Cable length : 0.8 meter

PCI Controller SATA



EM2001 | 2 Port PCI Controller SATA

Easily connect extra harddisks!

- 2 Internal serial ATA ports and 1 IDE port
- High transfer rate of 1.5Gbit/sec
- Supports RAID 0 and 1 (striping and mirror)
- 2 SATA cables included

Blue Led Mice

EM3181 | Blue Led Mouse - Wired

Work with confidence on more surfaces with this Blue LED mouse

- With Blue LED technology for excellent performance
- Greater illumination for better movement
- Less sensitive to dust
- Works on virtually every surface (except glass)
- Fitted with USB interface

EM3187 | Blue LED Mouse Slim - Wireless

Work with confidence on more surfaces with this wireless Blue LED Mouse with slim design.

- With Blue LED technology for excellent performance
- With slim design and rubber coating
- Greater illumination for better movement
- Less sensitive to dust
- Works on virtually every surface (except glass)

EM3184 | Optical Mouse USB Wave design - Wired

Precision on every surface

- Optical Mouse USB
- Innovative design
- Blue Trace technology
- Works on all surfaces, including glass!
- Blue Led sensor 1000dpi

UPS Systems
